Work Experience

COMPLIANCE & DATA ANALYST– RentReporters**–** Newport Beach, CA April 2026– Present

- Built and deployed 10+ **n8n** automations across operations, compliance, and fraud prevention, integrating **APIs** and business systems to automate **500+** monthly tasks and reduce manual processing time by 60%.
- Developed an AI-driven Salesforce workflow automating 200+ monthly customer account-change requests, reducing processing time by **70%** while enforcing fraud and security controls.
- Designed and maintained an n8n **ETL pipeline** that cleans and validates TransUnion files and upserts up to **3,300 records** daily into **Salesforce** CRM, cutting data errors in half.
- Investigated and resolved 100+ consumer disputes monthly with a 100% on-time resolution rate while maintaining data furnisher standards.
- Analyzed **250+ Salesforce records** and credit bureau tradelines monthly to identify recurring reporting errors, helping reduce repeat discrepancies by **25%** across 3 major credit bureaus.

DATA RESEARCH ASSISTANT– OCIE Small Business Development Center**–** Fullerton, CA June 2025– April 2026

- Conducted market research across **5+ databases**, identifying sales opportunities that saved clients **$2,000+ per report**.
- Developed **Tableau** dashboards for leadership, analyzing 1,000+ marketing and survey data points, identifying trends that improved program outreach and engagement by 15%.
- Entered, cleaned, and analyzed 1,000+ CRM records, improving data accuracy by **25%** and enhancing reporting.
- Transformed, standardized, and validated 1,500+ rows in **Excel**, ensuring data integrity and supporting business decision-making.

ASSETS PROTECTION SPECIALIST– Target Corporation**–** Fullerton, CA August 2023 – May 2025

- Managed 2 employees and reduced payroll expenses by **6%** through analyzing sales and foot traffic data using **Excel Pivot**.
- Pulled team performance data from an internal **BI** platform, built **KPI** dashboards, and created action plans that improved **KPIs** by **30%**.
- Prevented **$100k** in potential inventory loss by analyzing 1,000 rows of inventory and sales data in Excel.

Education

BACHELOR OF ARTS IN BUSINESS ADMINISTRATION– California State University Fullerton– Fullerton, CA January 2026
Majors: **Marketing and Information Systems GPA: 3.73 Cum Laude**

Projects

2025 CLIENT & MARKET ANALYSIS REPORT (EXCEL) OCIE SBDC April 2026

- Analyzed **7,000+ CRM client records** across 3 Southern California counties to evaluate geographic client distribution and market share by city.
- Built Excel county reports using **PivotTables**, **XLOOKUP**, and **Power Query** to consolidate population, county, and client data.
- Utilized **AI-assisted data cleaning** to standardize inconsistent city names, misspellings, and duplicate entries, reducing manual cleanup time by **80%.**
- Leveraged U.S. Census population data via **API/external datasets**, improving data accuracy by 30%+ and identifying 10+ underserved markets where client representation lagged population size, supporting targeted outreach strategy.
